Summary

Pasco School District views the use of electronic resources as central to the delivery of its educational program. By providing each secondary student a laptop computer to use at school and at home, Pasco School District intends to enable an engaging, collaborative, self-directed, and empowering learning environment. It is the District's goal that students will safely learn, share, collaborate, think critically and solve problems to succeed in a modern, digital world. In addition, educational technology has been proven to promote student engagement and enthusiasm for learning, ultimately assisting students in their acquisition of knowledge and thinking skills.

Students are expected to responsibly use district technology and network resources, keeping their district-issued devices safe, secure and in good working order. The information in this handbook outlines each party's responsibilities and will assist students and parents in meeting these expectations.

Parent and Student Responsibilities and Expectations

Student Responsibilities

Just as with other school district property, students are responsible for care and proper use. Students maintain the following responsibilities before, during, and after school whether they are on or off campus. Concerning their district issued laptop, students are responsible for:

- Using computer/device in a responsible and ethical manner, complying with the responsible use guidelines outlined within this handbook.
- Obeying school rules concerning behavior and communication that apply to technology use.
- Avoid damaging school equipment by using the device in an appropriate manner and taking a proactive role to aid Pasco School District in the protection of the laptop by reporting all issues.
- Complying with trademark and copyright laws and all license agreements. If you are unsure, ask a teacher or parent.
- Notifying a staff member immediately of information, images, or messages that are inappropriate, dangerous, threatening, or make them feel uncomfortable.
- Returning their laptop at the end of the school year (or student's enrollment) to the district in the same condition received.
- Monitoring all activity on their account(s)/device.
- Securing their device at all times.
- Reporting any device damage to a Teacher/Parent as soon as possible.
- Protecting themselves from data loss by storing all documents in their OneDrive cloud storage account.
- Maintaining security of their username and password at all times by not sharing or writing the information down.
- Adhering to proper etiquette and codes of conduct regarding electronic communication.
- Complying with the Pasco School District Electronic Resource Policy 2180 and Procedure 2180P at all times.

Parent/Guardian Responsibilities

The parent/guardian must agree to monitor student use at home, and away from school. The best way to keep students safe and on-task is to have a parent/guardian present and involved. Parent involvement is key for keeping students safe online.

- Talk to your child about values and the standards that your child should follow on the use of the Internet just as you do on the use of all media information sources such as television, telephones, movies, and radio.
- Be an active participant by asking your child to show you what sites they are navigating to and how they are being used in your child's education.
- Ensure that siblings and other family members are not using the device for personal use.
- Assume responsibility for the cost of repair or replacement if the device is not returned, damaged, lost or stolen.

Pasco School District Responsibilities

Pasco School District makes every effort to equip students and families with the necessary tools and information to ensure safe use of the digital devices inside and outside of the school environment. Filtering services provided in Pasco schools complies with federal regulations for protection of students and extends to laptops when they are used away from school. Pasco School District is responsible for the following items in regards to issuing students take home devices.

- Provide internet and online course material access to its students during the school day.
- Provide Internet filtering and blocking of inappropriate content. Pasco School District uses Cisco's Umbrella for content filtering, one of the most modern and aggressive filtering services available. However, no internet filtering solution is 100% effective; ensuring students are using the device appropriately requires active adult participation.
- Provide students guidance in the use of the device and help assure compliance of the acceptable use policy.
- Investigate inappropriate use of resources.

Responsible Use Guidelines

The following guidelines are provided so that students and families are aware of the responsibilities students accept when they use a district-owned device. In general, this requires efficient, ethical and legal utilization of all technology resources. Violations of these rules and guidelines may result in disciplinary action and a restriction of laptop privileges. Students receive device-related training throughout their academic career at Pasco School District with the goal of becoming responsible digital citizens.

Taking Care of Your Laptop

Students are responsible for the general care of their issued laptop. Laptops that are broken or fail to work properly must be taken to the designated school technology office for an evaluation of the equipment. Computer malfunctions will be reduced through proper care and maintenance of the device.

The following are some important care tips for laptops:

- Only use a clean, soft cloth to clean the screen, no cleansers of any type.
- Cords and cables must be inserted carefully into the Laptop to prevent damage.
- Laptops must remain free of any writing, drawing, stickers, or labels that are not the property of the Pasco School District.
- Laptops are very sensitive to extreme heat and extreme cold; avoid exposing the laptops to these conditions.
- Do not stack books or heavy materials on top of the laptop.
- Do not lean against the device or on your backpack with the device inside.
- Never leave laptops unattended in an unlocked or unsupervised area.

Appropriate Use

Digital devices and the Internet are great learning tools and can enhance student learning when used appropriately. All use of technology should support learning, follow all laws, and be school appropriate.

Students are encouraged to:

- Create files, digital projects, videos, web pages and podcasts using network resources in support of education and research.
- Participate in blogs, wikis, bulletin boards, networking sites and groups that support education and research.
- Create content that supports education and research.

Students are prohibited from:

- Installing or transmitting copyrighted materials
- Actions that violate [Board Policy](#) or public law
- Changing device settings, except personal settings such as font size, brightness, etc.
- Gaining access to other student's accounts, files, and/or data
- Using anonymous and/or false communications
- Using the device camera to take inappropriate photographs, including photographs without an individual's permission.
- Giving out personal information over the Internet.
- Any malicious attempt to harm or destroy hardware, software or data
- Bypassing the Pasco School District web filter or any other security systems
- Cyberbullying, harassing or distributing hateful content of any kind, including discriminatory jokes and remarks.
- Allowing the presence of guns, weapons, pornographic materials, inappropriate language, alcohol, drug, gang related symbols or pictures on their device.

Software on Laptop

The software/apps originally installed by Pasco School District must remain on the laptop on all times. Pasco School District will synchronize the laptop so that it contains the necessary apps for schoolwork. Students are not to install software for personal use (gaming, social media, messaging, etc.) and/or gain. Updated versions of licensed software/apps will be deployed through Pasco School District's Technology Department. Updates are required to address software bugs and vulnerabilities or to enhance the software feature set. The Technology Department will work to minimize the impact software updates have on instruction.

Using the Device at School

Devices are intended for use each school day. Students are expected to bring their device charged to all classes, unless specifically instructed not to do so by their teacher. When the device is being used for in-class assignments, the student is required to use the device exclusively for the work associated with class. If a student is found doing anything that is not directly related to class, privileges may be lost and necessary disciplinary action will be taken. School staff will retain the final authority in deciding when and how students may use personal electronic devices on school grounds

Students may be selected for random laptop inspections. Students should not have any expectation of privacy concerning the use of their device, as an inspection could include an inspection of all materials saved or accessed by the PSD laptop but not limited to websites visited, searchable terms, email content or browser history. The physical condition of the laptop will be inspected to insure the district ID tags

and barcodes are present, and no additional stickers/marks/skins are on the outside of the device. Devices are the property of Pasco School District and staff members may confiscate any device at any time for any purpose.

Devices Left at Home

If students leave their device at home, they are responsible for getting the course work completed as if they had their device present. Students who repeatedly leave their devices at home may have their take home privileges revoked.

Charging Your Device's Battery

Devices must be brought to school each day, fully charged. Students need to charge their devices each evening. Students who repeatedly (as determined by any staff member) fail to bring their device to school charged may have their take home privileges revoked.

Wireless Access

Several options exist for using the laptop away from schools even for families who do not have internet service at home. The laptops can still be used without an internet connection (offline). In an offline mode, students can still work with downloaded content and complete assignments using the Microsoft Office suite.

Pasco School campuses are blanketed with wireless connectivity, students are welcome to stay on campus after school hours; arrangements can be made with school staff. Additionally, public wireless options are growing in Pasco, several restaurants and retail locations offer free wireless internet service. Ask your local retailers if they offer free wireless access.

Digital Citizenship and Healthy Media Use

Pasco School District is committed to ensuring its students use technology to become lifelong learners and engaged citizens capable of using technology to create, collaborate, communicate and solve problems. Much like the physical world, children need to be taught and mentored on how to effectively use technology and appropriately act online. The following is a framework for student online behavior as well as parent tips on how to foster healthy media use within their child.

Students and Digital Citizenship

While working in a digital and collaborative environment, students should always conduct themselves as good digital citizens by adhering to the four following principles:

- **Respect Yourself.** Show respect for yourself through your actions. Select online names that are appropriate. Use caution with the information, images, and other media that is posted online. Carefully consider what personal information about your life, experiences, or relationships you post. Do not be obscene and act with integrity.
- **Protect Yourself.** Ensure that the information, images, and materials posted online will not put you at risk. Do not publish personal details, contact information or a schedule of your activities. Report any attacks or inappropriate behavior directed towards you while online. Protect passwords, accounts, and resources.
- **Respect Others.** Show respect to others. Do not use electronic mediums to antagonize, bully, harass, or stalk people. Show respect for other people in your choice of websites: do not visit sites that are degrading to others, pornographic, racist, or inappropriate. Do not enter other people's private spaces or areas.
- **Protect Others.** Protect others by reporting abuse and not forwarding inappropriate materials or communications. Avoid unacceptable materials and conversations.

Healthy Media Use Tips for Parents/Guardians

Today's children are growing up immersed in digital media, which can be enriching when balanced with their physical life. Media use should be safe and not disrupt other activities, such as play, study, in-person interaction and sleep. It is important that the adults in your child's life act as a media mentor, teaching and demonstrating a healthy use of digital media.

Here are some suggestions to keep your child safe and healthy as they grow their digital media competency.

- Talk to your children about the values and standards you expect your children to follow as they use the internet, similar to the standards discussed for television, telephone, movies, and music use.
- Investigate and apply parental controls available through your internet service provider and/or your wireless router.
- Develop a set of rules/expectations for device use at home.
- Place consistent limits on the time spent using media, and the types of media, and make sure media does not take the place of adequate sleep, physical activity and other behaviors essential to health.

- Designate media-free times together, such as dinner or driving, as well as media-free locations at home, such as bedrooms.
- Model good behavior. Show children how to be polite and respectful, and let them know that is the behavior you expect when they are interacting in the digital realm.
- Only allow device use in common rooms of the home (e.g. living room or kitchen) and not in bedrooms.
- Demonstrate a genuine interest in what your child is doing on the device. Ask questions and request to see their work often.
- Communicate expectations for the types of resources your student accesses online and for interacting with others online in a kind, respectful, and safe manner.
- Put all electronic devices “to bed” for the night at a designated time and in a designated location. This is a great way to ensure the laptop is charged nightly, as well.
- Turn off your home WiFi at appropriate times. Many of the laptop features require an Internet connection to function. Turning off your home WiFi at night can prevent late night activities that disrupt the student’s sleep and health.
- Monitor activity on your child’s account and view your child's internet history by pressing (CTRL) + (H)
- Understand the technology. Open a personal email account yourself and/or get your whole family connected. If your child views the program as a way of staying in touch with family, there might be less risk of misuse with friends.
- Consider creating a [Family Media Plan](#) to ensure that media use within your home is purposeful and healthy.

For additional information on healthy digital media habits, consider [Common Sense Media](#). Common Sense is a leading nonprofit organization dedicated to improving the lives of kids and families by providing the trustworthy information and education on 21st century topics.

Troubleshooting and Technical Support

Pasco School District (PSD) technical support is available during normal school hours. Extended support is available until 5:00pm Monday-Friday from the PSD Technology Department. When a technical problem arises, students can practice basic troubleshooting steps in order to identify and correct minor problems and conserve instructional time.

1. Student tries to fix the problem.
 - Always try restarting the device as the first step in troubleshooting.
 - If unable to access the internet, ensure that wireless is enabled, and the device is connected to a network.
 - If appropriate, student may ask a classmate for help.
 - Student may ask a teacher if the teacher is available to help for this purpose.
 - Students are reminded not to interrupt classroom instruction or waste too much time troubleshooting so they do not miss too much class time.
2. If the student is unable to resolve the problem, the student takes device to the building Technology Office and swaps the device for a working device. The student returns to class with a working device. The student keeps the device for remainder of the school year.

Under no circumstances are students allowed to take their computer to an outside company or party. All repairs, technical support and troubleshooting will be handled by the PSD Technology Department.

Device Swap

Pasco School District desires to limit the impact of malfunctioning devices on classroom instruction, so the district offers a quick replacement center at each building. If a student experiences an issue, they may go to the Technology Office at their building to have their device evaluated and immediately swapped out if the device is deemed malfunctioning or damaged. The student's replacement device now becomes their permanent device. If the result of the malfunction is determined to be a cause that requires an Protection Plan claim, the student and family will be notified.

Students should keep all files stored in the cloud on OneDrive to ensure they can maintain access to their files through the device replacement process. While under repair, no caution will be taken to save files stored locally on devices.

Device Protection Plan

The educational program at your student’s school includes a laptop that will be issued to your student for use at school and home. Pasco School District (PSD) is excited to make this powerful tool available to its students.

Just like textbooks, team uniforms, and other school property issued to students for school purposes, there is a responsibility to care for and return the property in the same condition as it was received. However, accidents or loss may happen, even when students are doing their best to take care of their device. In these cases, state regulations and district policies require a fine be assessed to cover repair or replacement of district property. In recognition of this, the Pasco School District offers an optional and inexpensive annual protection plan for parents/guardians to lessen the financial burden should an incident occur.

Liability

Devices are on loan to students and remain the property of the Pasco School District. Pasco School District will incur the repair cost for damaged equipment resulting from normal use or equipment malfunction. Costs for all other damage, loss, or theft—whether intentional or accidental—will be the responsibility of the student and will result in the student being charged the repair or replacement cost.

If a family chooses not to enroll in the Device Protection Plan, they will be financially responsible for the full repair or replacement cost of the device.

Plan Basics

The Pasco School District laptop Protection Plan is designed to be sensitive to even the smallest costs incurred by families while also rewarding responsible care of district property.

Accidental Damage vs. Negligence

Accidents do happen. However, there is a difference between an accident and negligence. Accidental damage includes damage despite following all guidelines for care and handling of the laptop. Leaving the laptop unattended, failing to secure it per school recommendations, leaving it in an unlocked car, leaving it on the bus, etc. do NOT qualify as a legitimate claim for unavoidable theft, loss, or damage.

Negligence is defined as failure to exercise proper care and/or take appropriate precautions, as described in the student handbook, resulting in damage or loss of equipment. If a device is damaged due to willful or negligent actions, students will be subject to discipline and be responsible for the cost of repair or replacement. Repeated instances of negligence may lead to the revocation of device take-home privileges.

The district recognizes that laptops are a consumable device, and expects as laptops age, they will show signs of wear and be more prone to technical failure.

Protection Plan Fee

Fees are annual and non-refundable.

\$20 – base Protection Plan fee

\$10 – Protection Plan fee for families qualifying for free or reduced meal prices

50% Discount for students not making a claim the prior school year (responsible care)

Students enrolling in the district after the start of 2nd semester will receive a 50% discount on the annual Protection Plan fee. Families with multiple children will only be required to pay two protection plan fees to cover all district devices within the family.

Coverage and Benefit

The following benefits are afforded under the Laptop Protection Plan. Pasco School District staff reserve the right to determine the cause of damage or loss and may adjust or escalate the fees if gross negligence is determined.

Repair/Replacement Fee	First Claim	Second Claim	All Other
Accidental Damage	None	50% of cost	Full cost of repair
Theft (with police report)	None	50% of cost	Full cost to replace
Loss or damage due to negligence	50% of cost	Full cost to replace	Full cost to replace

Any laptop lost or stolen will be remotely disabled and all functionality removed until the device is returned. If a lost laptop is recovered in working condition, the fine or cost of replacement paid by the student will be refunded.

The following items are not covered under the Laptop Protection Plan: lost charging cords or adapters, cases, peripheral equipment, willful damage (e.g. missing keys), or failure to check-in or return a device. If loss or damage of these items occur, a fine will be issued for replacement cost.

Damage that is purely cosmetic in nature, as determined by district staff, will not be repaired unless there is reasonable concern it will lead to further issues.

Hardware and software repair costs that are due to technological failure or defect will be the responsibility of the district. Pasco School District is not responsible for lost or corrupted data.

Standard rules for the restriction of records and transcripts apply for all unpaid fines.

Reporting Damage or Loss

In the event of damage or loss, contact school staff immediately. Any technical issue with the device must be reported to the school Technology Office in order to avoid further damage. In the event of theft or damage due to criminal activity, families should notify local law enforcement.

Repairs

Regardless of the cause of damage or malfunction, PSD Technical Support is available to assist students with getting issues resolved quickly. If it is determined that a device needs extensive repair, Technology Office staff will swap out the student's device with an operable one. Do not take PSD owned devices to an outside computer service for repair.

Repair costs range from \$25-\$250 and include only the cost of the repair parts; the district does not charge labor for repairs. The below table contains costs for the most commonly incurred replacement parts.

Component	Approximate Cost
Complete replacement	\$250
Screen	\$125
Hard drive	\$75
Battery	\$60
Lower or Upper Casing	\$50
Keyboard	\$50
Charger	\$25
Cases	\$12

Equipment Return

All Pasco School District owned devices must be returned at the end of the school year or when the student unenrolls from the building. Students leaving the district mid-year must return the device to the building Technology Office. As a part of the return procedure, the device will be inspected to assure that it is functioning properly and is not damaged.

Students who withdraw or leave the Pasco School District and do not return the student issued device will be subject to a full replacement fine and law enforcement may be involved for the purpose of recovering Pasco School District property. The laptop will be remotely disabled, and all functionality removed until the laptop is returned.

Device Take Home Opt Out

Laptops are a powerful learning resource and an integral part of the education all students receive at Pasco School District. Several of the district's curriculums are either partially or entirely digital.

Parents may opt out of having their child take a PSD laptop home; however, students are not allowed to opt out of having a device at school. Many of the learning activities in which students participate are now done via the device. When creating lessons, teachers consider ways the device can enhance the learning experience; therefore, it is imperative that students have a device. Should the device become an issue, parents should contact the Administration to see if a solution can be found.

If parents elect to opt out of the device take home program, then the parent must fill the necessary form(s) and the student will be responsible for checking the device out/in every day.

Personal Laptop Use

Students may bring their own laptops to school in substitution for a district issued laptop. Students are responsible for ensuring they have access to all the necessary curricular materials needed to participate in class and complete their schoolwork. In addition, the district will assume no responsibility for lost or damaged personal computers; students are responsible for troubleshooting technical issues on personal devices.

Appendix

Pasco Electronic Device Parent/Student Agreement

Student Name: _____

Student #: _____

Summary of Primary Responsibilities

Students agree to the following responsibilities before, during, and after school whether or not they are on or off campus.

- Use the device in a responsible and ethical manner and only to support learning and school appropriate functions.
- Secure the device and keep the laptop case on at all times.
- Bring the laptop to school daily, fully charged.

The parent/guardian agrees to monitor student use at home, and away from school. The best way to keep students safe and on-task is to have a parent/guardian present and involved.

- Talk to your child about values and the standards that they should follow on the use of the Internet just as you do on the use of all digital media (TV, phones, movies, music, etc.).
- Be active participants by asking your child to show you what sites they are navigating and how they are being used in your child's education.
- Encourage balanced and healthy digital media use.

Device Protection Plan

Pasco School District offers an optional and inexpensive annual protection plan for parents/guardians to lessen the financial burden should an incident occur.

\$20 – base Protection Plan fee

\$10 – Protection Plan fee for families qualifying for free or reduced meal prices

50% Discount for students not making a claim the prior school year (responsible care)

Families with multiple children will only be required to pay two Protection Plan fees to cover all district devices within the family.

The following benefits are afforded under the Protection Plan. Pasco School District staff reserve the right to determine the cause of damage or loss and may adjust or escalate the fees if gross negligence is determined. **Laptop cases and power supplies are not covered by the Protection Plan.**

Repair/Replacement Fee	First Claim	Second Claim	All Other
Accidental Damage	None	50% of cost	Full cost of repair
Theft (with police report)	None	50% of cost	Full cost to replace
Loss or damage due to negligence	50% of cost	Full cost to replace	Full cost to replace

I will purchase device protection. Amount owed \$_____

I am not purchasing protection and agree to cover all device repairs and losses.

My child and I have reviewed and agree to the responsibilities and expectations outlined above.

Student Signature: _____ Date: _____

Parent Signature: _____ Date: _____

Device Opt Out – I would like to opt-out of having my child issued a device. My child will check out a laptop every day or bring their own laptop.
