

INSTRUCTION

Goals

The district shall provide an equal opportunity for every student to receive an education which will enable each to fulfill his or her optimum role in society, commensurate with individual ability, in compliance with legal requirements and reflecting the desires of the people.

The instructional programs, methods and resources shall meet the needs of each individual student, regardless of race, color, caste, sex, or level of ability. The district recognizes that equal opportunity education does not imply uniformity and that each student's unique characteristics must be acknowledged.

The instructional programs, methods and materials shall not imply, teach or encourage any beliefs or practices reflecting bias or discrimination toward other individuals or groups and shall not deny others their basic human rights.
