

INSTRUCTION

Online Learning

The board of directors finds that it is in the best interest of students for the district to provide a variety of learning options, including online courses and programs. The board recognizes that the online learning environment provides students with opportunities to become self-disciplined learners with life-long learning skills. Further, the board recognizes that online learning provides opportunities for students to access curriculum and specialized courses in a flexible learning environment that might not otherwise be available.

Therefore, the board authorizes the superintendent to implement online learning opportunities that are equally accessible to all students in the school district. The superintendent or designee will develop procedures to implement this policy. The procedures will include, but not be limited to, a description of student access to online learning courses/programs, student eligibility criteria, the types of online courses available to students, methods the district will use to support student success, payment of course fees and other costs, granting of course credit and conditions under which no credit will be awarded.

The board further directs the superintendent to provide information to parents, students and staff regarding online learning options and the guidelines for participation.
