

INSTRUCTION

Drugs, Alcohol and Tobacco Education

The board recognizes that a significant number of parent(s) or guardian(s), students and others are seriously concerned about the adverse effects of drugs, alcohol, and tobacco, and that the schools share responsibility for providing appropriate information to young people.

The district shall cooperate with parent(s) or guardian(s), professional authorities, community agencies and others in developing an effective educational program dealing with this important area. The program will be age-appropriate and developmentally based for all students in all grades. It will address the legal, social and health consequences of drugs, tobacco and alcohol use and provide information about effective techniques for resisting peer pressure to use illicit drugs, tobacco or alcohol.
