

# CHAT WITH UW MAPS

MINORITY ASSOCIATION OF PRE-MEDICAL STUDENTS

Come talk to pre-health students from underrepresented backgrounds and get advice on applying to UW. You can get your questions or concerns answered from students who are excited to help you! It would be a great way to get some words of advice on college essays, tips on course planning for high school, and learn more about amazing programs such as STARS and GenOM Project that are for incoming freshman.

Hope to see you there!
