Career & Technical Education

- Pasco School District’s Career & Technical Education Programs (CTE) are on the cutting edge of creating tomorrow’s workforce. Courses are designed and taught to industry standards. All of the skills students gain in our programs transfer directly to the workforce and/or prepare them for post-secondary education.
- Students have the opportunity to receive Tech Prep College Credits.
- Our Work-based Learning Program offers students opportunities to gain workplace skills through either paid or nonpaid employment.
- All of our programs offer student leadership opportunities through on-campus clubs. Students are able to compete, travel, and interact with students from across the nation. Many of our students have competed and placed in national contests. These competitions help further student skills.
- Many of our courses offer students the opportunity to earn required credits needed for a high school diploma. (Example: Photography meets a Fine Art graduation requirement.)
- Tri-Tech Skills Center and Delta High School are cooperatively owned facilities with area school districts and serve as an extension and educational resource to Pasco School District students.

**CHIAWANA HIGH SCHOOL**

**Agriculture Science Education**
- Agricultural Biotechnology* (Intro/Adv)
- Agricultural Science* (Intro/Adv)
- Animal Science* (Intro/Adv)
