This is an exploratory class where students will be introduced to basic methods for the creation, design, maintaining and updating of web sites that can be published on the Internet using HTML, CSS and Dreamweaver. Upon completion of the course students will have designed their own web pages including a business web page for a “client” using HTML, CSS and Adobe Dreamweaver.

Students enrolled in this class will be introduced to the following concepts:
- HTML
- CSS
- Dreamweaver
- Elements
- Attributes
- Style
- Tags
- Fireworks
- Storyboarding
- Links
- Graphics
- Adding interactivity
- Publishing
- Copyright laws

Students will have daily assignments to master fundamentals as well as individual projects.

Prerequisite: Students should have taken and passed either Technology Literacy or Advanced Technology Literacy prior to enrollment in the class.

Classroom Rules

1. Be polite and respectful to teacher and fellow students at all times. Behavior that is disruptive to the learning environment of other students will not be tolerated.

2. No food or drinks are allowed in the computer labs. **SCHOOL RULE!!**

3. Copying someone else’s work is not allowed. If you are caught, you AND the person you copied from will both get a zero for the assignment.

4. If you have a cell phone it must be turned off and out of sight during class time. **IPods are not allowed.** Students may NOT plug their ear buds into the computers at any time to listen to music or watch videos. This is a working lab only. The teacher will confiscate cell phones, IPods, ear buds, etc. if they are during class. Students will have to get them back from their wing administrator.

5. The Internet is for classroom use only as a learning tool. Do not use the Internet to download music, play games, watch videos or check your personal email, etc. The Internet needs to be used only as a learning tool or you will lose this privilege.

6. Makeup work for excused absences needs to be turned in within 3 class days of the student’s return. It is your responsibility to get the assignments from the teacher if you were absent. Assignments will be posted everyday so students can see what they need to make up. Students will not be allowed to “accumulate” missing assignments and then try to turn them in all at once at grading time. An excused absence does not excuse you from the assignment; you are still required to make up the work. The computer lab will be open after school for makeup work on Wednesdays.
ATTENDANCE
Good attendance is necessary to be successful. Students with a large number of absences find it very hard to make up all of their missing work since this a Computer Lab class. Students are required to follow the school attendance policy. Missing work is the student’s responsibility and must be made up within 3 days of the student’s return.

Good attendance is a leadership skill and will be counted as part of your grade in this class. (See grades below.)

COMPUTER USE
Vandalizing the computers in any form will result in your dismissal from this class and you will no longer be able to use any computer in the school. Vandalism includes, writing on the computer, switching keys around on the keyboard or sabotaging the computer so it will not work. Hacking is considered vandalizing.

GRADES
Grades go out every 5 weeks. You may ask for a progress Report anytime or you may check your current grade and any missing assignments online at PowerSchool.

You will be graded as follows:
  Attendance/Class Participation Leadership........ 10%
  Classroom Assignments.............................. 40%
  Projects/Presentations/Tests......................... 50%

GRADING SCALE

| 93-100 | A     | 73-76 | C   |
| 90-92  | A-    | 70-72 | C-  |
| 87-89  | B+    | 67-69 | D+  |
| 83-86  | B     | 60-66 | D   |
| 80-82  | B-    | 0-59  | F   |
| 77-79  | C+    |       |     |

Parent/Guardian signature required.
I have read and gone over with my student this class syllabus.

(Student Name, Please print)

(Parent/Guardian Signature) (Date)
(Signature indicates parents and student have read and understand the class rules, attendance policy, and grading scale for this class.)
