High School Physical Education Waiver Application

Pasco School District encourages all students to complete the P.E. credits required for graduation. Achieving proficiency on key health and physical fitness state standards is required, and the district desires to promote a healthy lifestyle through regular physical activity.

Students may request a waiver for one P.E. course in the 11th and 12th grade years (1.0 credits total). Only in extreme extenuating circumstances will a student be approved to waive a third Physical Education course. The purpose of a P.E. waiver is to increase course flexibility to better meet a student’s post-high school goals. Full-time enrollment (5 trimester-based high school courses each term) is required for waiver approval, and an approved waiver does not decrease the overall credits required for graduation.

This form must be completed by the student for each P.E. course waiver requested. An alternative Physical Education assessment must be completed in conjunction with the waiver application (i.e. fitness plan/portfolio). Additional alternative assessment options may be developed by the P.E./Health faculty, with district approval.

Forms are DUE on March 31st annually. Students and families will be notified of waiver approvals by June 1st of the academic year in which they are requested.

**Student Fitness Plan/Portfolio**

Students must submit a written health/fitness plan with the P.E. waiver application form. The fitness plan must include the following components:

- **SMART Goal**: Identify a personal health-related fitness goal following SMART format (Specific, Measurable, Attainable, Realistic, Timebound).
- **Program Design**: Document the planned fitness program to meet your identified goal. The plan must include warm-ups, physical activity based on FITT principles (Frequency, Intensity, Time and Type), planned progression of increased intensity or duration, and cool down activities.
- **Strategies**: Plan strategies to ensure personal safety during performance of physical activities, as well as specific strategies to maintain personal motivation to complete the program and achieve your goal.

Submitted plans must be scored at 80% or higher (earn a “3” or “4” on each component).
